# Downtown Market Assessment Bainbridge, Georgia August 2022

Prepared on behalf of City of Bainbridge, Georgia Downtown Development Authority of Bainbridge

Prepared by ECG Office of Economic & Community Development

This page is intentionally left blank.

# About Bainbridge

The City of Bainbridge is the county seat of Decatur County, Georgia, located in Southwest Georgia on the Florida border. Tallahassee, Florida, is located just 40 miles northwest of Tallahassee and 60 miles northwest of the Gulf Coast of Florida, Bainbridge is home to an inland port and has a long history as a regional trade hub.

In addition to its proximity to major Florida coastal destinations such as Tallahassee and Panama City, Bainbridge itself is also a destination for outdoor recreation in rivers, marshes, and hunting plantations and has many sites of historical significance. Nearby Lake Seminole and the Flint River both attract amateur and professional fishermen, including numerous fishing competitions.

These factors have contributed to the growth of Bainbridge's downtown district in recent years. Bainbridge boasts restaurants, shops, jewelers, bakeries, a seasonal farmers' market, a museum, a nonprofit theatre, an arts center, and many annual events.

DEMOGRAPHICS & PSYCHOGRAPHICS

# ECONOMIC CONDITIONS

# DOWNTOWN MARKET RECOMMENDATIONS

# APPENDIX

# **Retail Opportunity**

Retail leakage refers to the phenomenon where retail sales in a given area are less than the retail spending (demand) of the residents in the same region. Conversely, a retail surplus refers to when retail sales in an area exceed retail spending by residents. A retail leakage often, though not always, indicates an opportunity to recruit and open new retail establishments allowing the opportunity to capture the excess spending by residents.

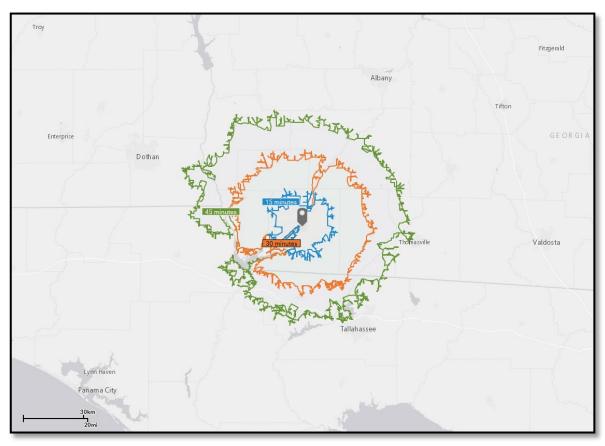

# **Retail Trade Areas**

#### Primary Retail Trade Area

The primary retail trade area for Bainbridge is the 15-minute drive time area from downtown Bainbridge. The primary retail trade area has a \$38.8 million retail surplus. Categories experiencing a retail leakage in the primary retail trade area include furniture/home furnishing stores; clothing/accessories stores; sports/hobby/book/music stores; and food services & drinking place. Please see the appendix of this document for the full leakage report for the Primary Retail Trade Area (15-minute drive time).

#### **Regional Retail Trade Area**

The regional retail trade area for Bainbridge extends to the 45-minute drive time area from downtown Bainbridge. This region represents the potential retail draw area for specialty retail and dining that may not be found in consumers' residential area. The regional retail trade area extends to Tallahassee and Thomasville.

The population within the regional trade area is 159,658 as of 2022, with a median household income of \$50,631, which is slightly higher than the primary trade area and indicates an increased capacity for discretionary spending. The residents of the regional retail trade area make over \$1.4 billion in annual retail purchases, while the retailers in the area had over \$1.3 billion in retail sales, resulting in a retail leakage or opportunity of over \$100 million. Please see the appendix of this document for the full leakage report for the Regional Retail Trade Area (45-minute drive time).

# **Bainbridge Retail Market**

Bainbridge has a retail corridor along East Shotwell St, as well as many shops and restaurants located in the downtown area. In addition, there is a second retail area south of the city, with a Walmart Supercenter and a Home Depot anchoring smaller retail shops and restaurants.

# **Retail Opportunity**

# Additional Retail Demand Generators

There are several factors and attractions that contribute to retail demand in the Bainbridge primary and regional trade areas.

- Local Employment Base: With a considerable employment base from the Services, Retail Trade, and Manufacturing industries, Bainbridge has a daytime population from which to draw restaurant patrons and shoppers on the way to and from work.
- **Recreational Opportunities**: Bainbridge has ample hiking, hunting, and fishing sites. Recreational visitors bring spending potential with them.
- **Gulf Coast Travelers**: Bainbridge is close to Tallahassee and the Gulf of Mexico. Travelers can be drawn in to spend money in Bainbridge while on their way to and from Panama City and other Gulf destinations

# **Downtown Bainbridge Retail Market: Challenges, Assets, and Opportunities** Challenges

- The median household income of the City of Bainbridge and the retail trade areas is lower than some national retailers look for in their customer base.
- With a smaller local population, attracting a wide variety of retail options may be more difficult. Bainbridge stakeholders will have to tell the story of Bainbridge in a way that goes beyond the hard numbers.

### Assets and Opportunities

- Bainbridge has an existing base of successful downtown businesses, which will make attracting new businesses and investment easier.
- Bainbridge has a net commuter inflow, which presents some opportunities for daytime dining and shopping for commuters on their way home or to their workplaces.
- Bainbridge is located along the route to the Gulf Coast for many travelers, and has recreational destinations of its own for hikers, fishermen, and hunters.

# **National Retail Market**

The national retail market has undergone rapid changes in the past few years due to the COVID-19 pandemic and the economic and social changes that have come from it. Shifting consumer preferences and needs, the growth of e-commerce, and supply chain and logistics challenges have all contributed to recent retail changes. Temporary shifts toward food at home and grocery shopping and away from dining out created a shift in the food supply chain that has slowly been returning to its pre-pandemic patterns. The National Retail Federation (NRF) predicted in March 2022 that retail sales would grow between six and eight percent from 2021 to 2022 to between \$4.86 trillion and \$4.95 trillion.

# Annual Retail Sales (in trillions)

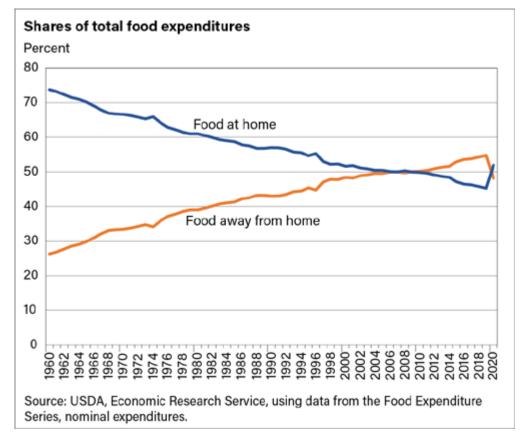

\$4.86 -\$4.95

National Retail Foundation (NRF), based on U.S. Census Bureau data Note: Excludes automobile dealers, gasoline stations, and restaurants \*2022 figures are NRF projections

# **National Retail Market**

# Food Sales in the United States

Trends leading up to 2020 had seen food sales in the United States shift from mostly food at home to mostly food away from home. In 2020 and 2021, due to lockdowns and fears of catching COVID while dining out, consumer preferences shifted more toward food at home in a break with previous trends. In 2020, nearly equal shares of sales were spent on food at home and food away from home, and, in 2021, more money was spent on food at home than food away from home. However, many analysts expect this to be a temporary situation and expect the previous shift toward food away from home to continue in 2022 and beyond.

Note: Data shown is the latest available.

# **Demographics & Psychographics**

The following analysis consists of an overview of the demographic and socioeconomic status of the residents of the **City of Bainbridge**, alongside comparative statistics for the surrounding area to provide context.

### **Population**

The City of Bainbridge's estimated 2022 population of 14,754 represents an increase of two percent from the city's 2020 population of 14,468. It is projected that the population will increase modestly by almost half a percentage point over the next five years to approximately 14,808.

Over the period between 2010 and 2020, the populations in both City of Bainbridge and Decatur County have increased, following population trends in the State of Georgia. In the next five years, the populations of the city is expected to increase slightly, while the population of the county is projected to decline slightly.

Population	City of	Decatur	State of
	Bainbridge	County	Georgia

Percent Change: 2022 to 2027	0.4%	-0.2%	2.6%

U.S. Census Bureau, Decennial Census (2010, 2020); Esri (2022, 2027)

# **Demographics & Psychographics**

# Race/Ethnicity

The two main racial groups in Bainbridge and Decatur County are White and Black. Other racial groups make up a relatively small share of the population. Residents of Hispanic of Latino origin, who can be of any race, make up about six percent of the population of Bainbridge and seven percent of the population of Decatur County.

# Age

The median age of Bainbridge residents is 37.2 years, which is younger than the Decatur County median age of 39.7 years and the same as the State of Georgia median age of 37.2 years. By comparing the populations of Bainbridge and Decatur County, it is evident that the age distribution of the county skews slightly higher than that of the city.

				Esri (2022)

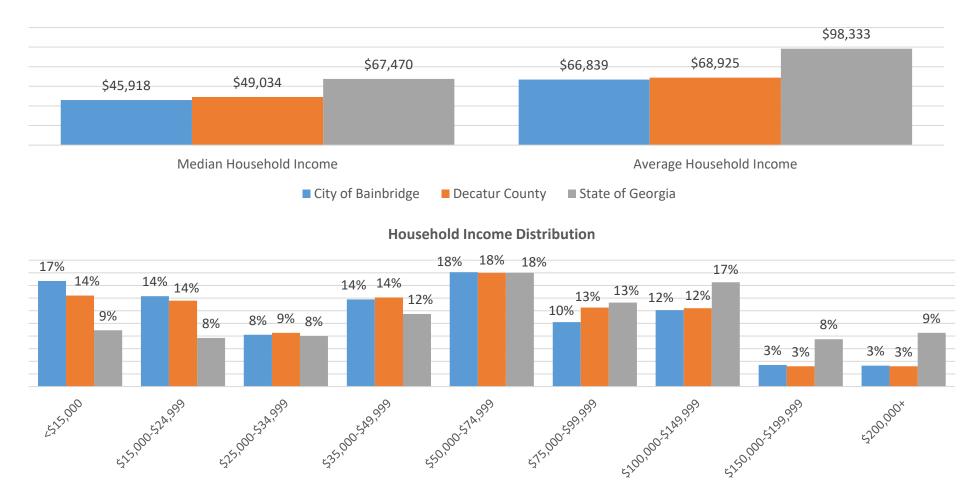

**Household Characteristics** 

In 2022, the estimated average household size in the City of Bainbridge was 2.53, close to the average household size in Decatur County (2.48) and the State of Georgia (2.60). Approximately 36 percent of Bainbridge households have at least one child, which is comparable to Decatur County (33.9 percent) and the State of Georgia (32.6 percent). Nearly two-thirds of Bainbridge children live in single-parent families, compared with slightly over half of Decatur County children and 38 percent of Georgia children.

# **Demographics & Psychographics**

### Income

Household income can indicate purchasing power and economic potential of a community. As of 2022, the estimated median household income for the City of Bainbridge is \$45,918, compared with \$49,034 in Decatur County, and \$67,470 in the State of Georgia. The household income distribution is more concentrated at lower income levels in Bainbridge, and, to a lesser extent, in Decatur County than it is in the State of Georgia.

Esri (2022) City of Bainbridge Decatur County State of Georgia

# Poverty, Disability, and Social Characteristics

The percentage of the population living at or below the poverty level is relatively high in Bainbridge and Decatur County at 27 percent and 24 percent, respectively. Households receiving SNAP or food stamps amount to 27 percent and 20 percent of Bainbridge and Decatur County, respectively.

Poverty , Disability, and Social Characteristics	City of Bainbridge	Decatur County	State of Georgia

# **Psychographics**

Esri produces a psychographic classification system, which categorizes people in each area by their values and purchasing behavior, called Tapestry Segmentation. Tapestry Segmentation classifies US neighborhoods into 67 unique segments, based on demographics and socioeconomic characteristics. Esri Tapestry Segmentation includes three indexes displaying average household wealth, socioeconomic status, and housing affordability for the market relative to US standards. Below are the top three tapestry segments within the primary and regional retail trade areas of downtown Bainbridge. Please see the Appendix for details about these tapestry segments.

	Primary Retail Trade Area (15-Minute Drive Time Area of Downtown Bainbridge)		Regional Retail Trade Area (45-Minute Drive Time Area of Downtown Bainbridge)
1.	Rural Bypasses (10E)	1.	Rural Bypasses (10E)
2.	Small Town Sincerity (12C)	2.	Southern Satellites (10A)
3.	City Commons (11E)	3.	Rooted Rural (10B)

Esri (2022)

The following section presents an overview of economic conditions in the **City of Bainbridge**, including labor force breakdowns, commuter patterns, occupational data, and industry data.

# Labor Force and Unemployment

Slightly over half of the population of Decatur County ages 16 and older are in the labor force (52.7 percent), which means they are either employed or unemployed and actively seeking work. This is lower than the labor force participation rates\* of the State of Georgia (63.0 percent) and United States (63.2 percent).

The May 2022 unemployment rate in Decatur County is 2.9 percent, compared with 2.7 percent in Georgia and 3.4 percent in the United States. The prime-age labor force participation rate\* in Decatur County is 70.8 percent, slightly lower than the Georgia rate of 80.9 percent and the United States rate of 82.1 percent.

# Commute

In 2019, Bainbridge and Decatur County residents had a much lower average commute time at 20.2 and 22.9 minutes, respectively, than Georgia residents at 28.8 minutes. Nearly two thirds of Bainbridge residents with jobs commuted to workplaces outside of the city. For Decatur County residents with jobs, 58 percent commuted to workplaces outside of the county. More workers commute into Bainbridge than commute out of Bainbridge, resulting in a net commuter inflow. However, more workers commute out of Decatur County than into the county, resulting in a net commuter outflow.

# Commute

Note: In some instances, OnTheMap commuter data may capture employees who work remotely or who work in a different office location than is reflected in the data. Data is based on self-reporting from employers and errors or misclassifications are possible. In addition, the latest official commuter data is from 2019 and it is likely that the commuter patterns have shifted significantly since then following national trends.

Public Administration	5.4%	6.0%	4.8%

#### Bainbridge Industries

Esri (2022)

# **Downtown Market Recommendations**

Downtown Bainbridge has challenges to developing its retail potential, but it has as many or more assets and opportunities. The following recommendations are aimed to provide focus areas and steps to follow to develop the retail potential of downtown Bainbridge and the City of Bainbridge as a whole:

# 1. Focus on attracting customers from the regional retail trade area to enjoy downtown dining, shopping, and recreational opportunities

The regional retail trade area has a larger population with a higher disposable income than the primary retail trade area. By leveraging nearby recreational attractors and travelers to Gulf Coast beaches, downtown Bainbridge can draw in customers with spending potential to its businesses.

# 2. Target business development in downtown to create a regional destination.

Downtown Bainbridge has several unique venues, dining, and shopping opportunities to attract visitors. Continuing to develop additional businesses along these lines can help downtown Bainbridge develop into a regional destination in its own right.

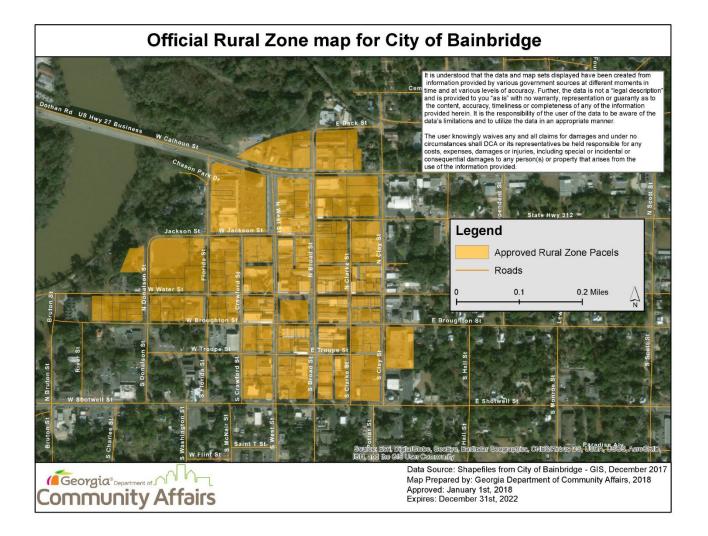

# 3. Develop businesses in the downtown district to serve residents of the primary retail trade area.

Attracting businesses in industry sectors with a retail leakage may help draw in additional retail dollars from residents in the immediate area. These industry sectors include furniture/home furnishing stores; clothing/accessories stores; sports/hobby/book/music stores; and food services & drinking places. Please see the Appendix for additional retail leakage and surplus data.

**4.** Expand marketing efforts for attractions, events, and festivals in trade magazines and other channels. Advertise special attractions and events in specialty magazines and on social media to draw more visitors to the community.

# LifeMode Group: Rustic Outposts **Rural Bypasses**

Households: 1,646,400 Average Household Size: 2.55 Median Age: 40.4 Median Household Income: \$33,000

### WHO ARE WE?

Open space, undeveloped land, and farmland characterize *Rural Bypasses*. These families live within small towns along country back roads and enjoy the open air in these sparsely populated neighborhoods. Their country lifestyle focuses on the outdoors, gardening, hunting, and fishing. They are more likely to own a satellite dish than a home computer. Although most households do have a connection to the internet, use is very limited. Those who are not yet retired work in blue-collar jobs in the agriculture or manufacturing industries.

### OUR NEIGHBORHOOD

- An older market, with more married couples without children and single households, the average household size is slightly lower at 2.55.
- Most residents own single-family homes or mobile homes (Index 504).
- Most housing was built from 1970 to 1989; vacancy rates are higher due to seasonal housing.
- Residents live in very rural areas, almost entirely in the South.

## SOCIOECONOMIC TRAITS

• Almost 25% have not finished high school; 11% have a bachelor's degree or higher.

**10E** 

- Labor force participation is low at 47% (Index 76).
- Income is primarily derived from wages and supplemented with Social Security and Supplemental Security Incomes.
- Religion and faith are central in their lives.
- They rely on television to stay informed.

### AGE BY SEX (Esri data)

### RACE AND ETHNICITY (Esri data)

The Diversity Index summarizes racial and ethnic diversity. The index shows the likelihood that two persons, chosen at random from the same area, belong to different race or ethnic groups. The index ranges from 0 (no diversity) to 100 (complete diversity).

# Diversity Index: 60.5 US: 64.0

# INCOME AND NET WORTH

Net worth measures total household assets (homes, vehicles, investments, etc.) less any debts, secured (e.g., mortgages) or unsecured (credit cards). Household income and net worth are estimated by Esri.

#### Median Household Income

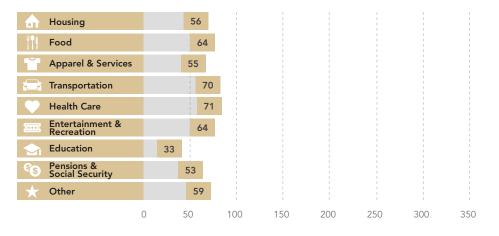

#### **Median Net Worth**

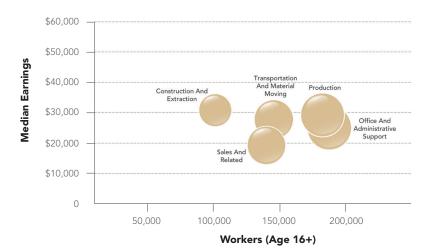

# AVERAGE HOUSEHOLD BUDGET INDEX

The index compares the average amount spent in this market's household budgets for housing, food, apparel, etc., to the average amount spent by all US households. An index of 100 is average. An index of 120 shows that average spending by consumers in this market is 20 percent above the national average. Consumer expenditures are estimated by Esri.

# **OCCUPATION BY EARNINGS**

The five occupations with the highest number of workers in the market are displayed by median earnings. Data from the Census Bureau's American Community Survey.

#### MARKET PROFILE (Consumer preferences are estimated from data by MRI-Simmons.)

- Typical of their country lifestyle, Rural Bypasses residents prefer trucks over sedans.
- To save money, households shop at discount department stores, such as Walmart, and warehouse clubs like Sam's Club.
- Magazines are a popular source of news and entertainment, particularly fishing, hunting, and automotive types.
- As satellite TV subscribers, they regularly watch sports programming as well as their favorite shows on CMT, Freedom, USA Network, and TV Land.

### HOUSING

Median home value is displayed for markets that are primarily owner occupied; average rent is shown for renter-occupied markets. Tenure and home value are estimated by Esri. Housing type and average rent are from the Census Bureau's American Community Survey.

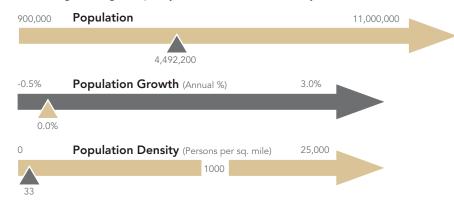

**Typical Housing:** Single Family; Mobile Homes

**Median Value:** \$83,200 US Median: \$207,300 Own 69.9% US Percentage: 62.7% Own 37.3% Rent Rent 30.1%

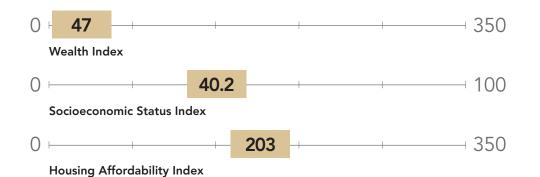

# POPULATION CHARACTERISTICS

Total population, average annual population change since Census 2010, and average density (population per square mile) are displayed for the market relative to the size and change among all Tapestry markets. Data estimated by Esri.

# **ESRI INDEXES**

Esri developed three indexes to display average household wealth, socioeconomic status, and housing affordability for the market relative to US standards.

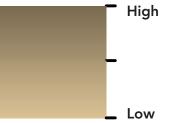

### SEGMENT DENSITY

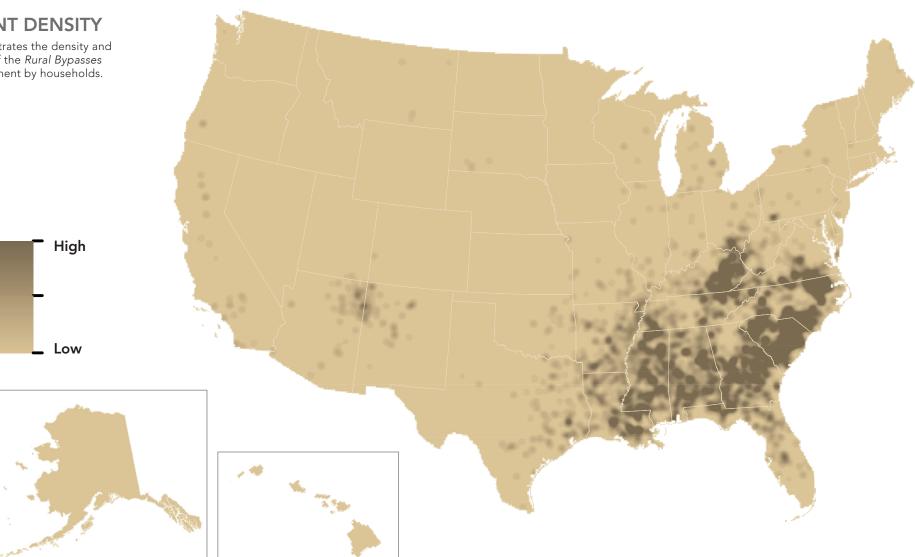

This map illustrates the density and distribution of the Rural Bypasses Tapestry Segment by households.

# LifeMode Group: Hometown Small Town Sincerity

Households: 2,305,700 Average Household Size: 2.26 Median Age: 40.8 Median Household Income: \$31,500

### WHO ARE WE?

Small Town Sincerity includes young families and senior householders that are bound by community ties. The lifestyle is down-to-earth and semirural, with television for entertainment and news, and emphasis on convenience for both young parents and senior citizens. Residents embark on pursuits including online computer games, renting movies, indoor gardening, and rural activities like hunting and fishing. Residents keep their finances simple paying bills in person and avoiding debt.

# OUR NEIGHBORHOOD

- Reside in small towns or semirural neighborhoods, mostly outside metropolitan areas.
- Homes are a mix of older single-family houses (61%), apartments, and mobile homes.
- Half of all homes are owner occupied (Index 79).
- Median home value of \$92,300 is about half the US median.
- Average rent is \$639 (Index 62).
- This is an older market, with half of the householders aged 55 years or older and predominantly single-person households (Index 139).

# SOCIOECONOMIC TRAITS

- Education: 67% with high school diploma or some college.
- Labor force participation lower at 52% (Index 83), which could result from lack of jobs or retirement.
- Income from wages and salaries (Index 83), Social Security (Index 133) or retirement (Index 106), increased by Supplemental Security Income (Index 183).
- Price-conscious consumers that shop accordingly, with coupons at discount centers.
- Connected, but not to the latest or greatest gadgets; keep their landlines.
- Community-oriented residents; more conservative than middle of the road.
- Rely on television or newspapers to stay informed.

# LifeMode Group: Midtown Singles City Commons

Households: 1,106,600 Average Household Size: 2.67 Median Age: 28.5

Median Household Income: \$18,300

### WHO ARE WE?

This segment is one of Tapestrys Segmentation's youngest markets. It is primarily composed of single-parent and single-person households living within large metro cities located primarily in the eastern half of the US. While more than a third have a college degree or spent some time in college, nearly a quarter have not finished high school. These residents strive for the best for themselves and their children. Most occupations are within office and administrative Support.

# OUR NEIGHBORHOOD

- Single parents (Index 315), primarily female, and singles head these young households.
- Average household size is slightly higher than the US at 2.67.
- *City Commons* residents are found in large metropolitan cities, where most residents rent apartments in mid-rise buildings.
- Neighborhoods are older, built before 1960 (Index 151).
- Typical of the city, many households own either one vehicle or none and use public transportation (Index 292) or taxis (Index 299).

# SOCIOECONOMIC TRAITS

- Although some have college degrees, nearly a quarter have not graduated from high school.
- Labor force participation is low at 53% (Index 84).
- Most households receive income from wages or salaries, with nearly one in four that receive contributions from Social Security (Index 287) and public assistance(Index 355).
- Consumers endeavor to keep up with the latest fashion trends.
- Many families prefer the convenience of fast-food restaurants to cooking at home.

Households: 3,856,800 Average Household Size: 2.67

Median Age: 40.3

Median Household Income: \$47,800

#### WHO ARE WE?

Southern Satellites is the second largest market found in rural settlements but within metropolitan areas located primarily in the South. This market is typically slightly older, settled married-couple families, who own their homes. Two-thirds of the homes are single-family structures; almost a third are mobile homes. Median household income and home value are below average. Workers are employed in a variety of industries, such as manufacturing, health care, retail trade, and construction, with higher proportions in mining and agriculture than the US. Residents enjoy country living, preferring outdoor activities and DIY home projects.

## OUR NEIGHBORHOOD

- About 78% of households are owned.
- Married couples with no children are the dominant household type, with a number of multigenerational households (Index 112).
- Most are single-family homes (67%), with a number of mobile homes (Index 509).
- Most housing units were built in 1970 or later.
- Most households own one or two vehicles, but owning more than three vehicles is common (Index 144).

# SOCIOECONOMIC TRAITS

- Education: almost 40% have a high school diploma only (Index 140); 45% have college education (Index 73).
- Labor force participation rate is 59.1%, slightly lower than the US.
- These consumers are more concerned about cost rather than quality or brand loyalty.
- They tend to be somewhat late in adapting to technology.
- They obtain a disproportionate amount of their information from TV, compared to other media.

#### AGE BY SEX (Esri data)

## **OCCUPATION BY EARNINGS**

The five occupations with the highest number of workers in the market are displayed by median earnings. Data from the Census Bureau's American Community Survey.

#### MARKET PROFILE (Consumer preferences are estimated from data by MRI-Simmons.)

- Usually own a truck; likely to service it themselves.
- Frequent the convenience store, usually to fill up a vehicle with gas.
- Typical household has a satellite dish.
- Work on home improvement and remodeling projects.
- Own a pet, commonly a dog.
- Participate in fishing and hunting.
- Prefer to listen to country music and watch CMT.
- Read fishing and hunting and home service magazines.
- Partial to eating at low-cost family restaurants and drive-ins.
- Use Walmart for all their shopping needs (groceries, clothing, pharmacy, etc.).

#### HOUSING

Median home value is displayed for markets that are primarily owner occupied; average rent is shown for renter-occupied markets. Tenure and home value are estimated by Esri. Housing type and average rent are from the Census Bureau's American Community Survey.

# LifeMode Group: Rustic Outposts Rooted Rural

Households: 2,430,900 Average Household Size: 2.48 Median Age: 45.2 Median Household Income: \$42,300

#### WHO ARE WE?

Rooted Rural is heavily concentrated in the Appalachian mountain range as well as in Texas and Arkansas. Employment in the forestry industry is common, and *Rooted Rural* residents live in many of the heavily forested regions of the country. This group enjoys time spent outdoors, hunting, fishing, or working in their gardens. Indoors, they enjoy watching television with a spouse and spending time with their pets. When shopping, they look for American-made and generic products. These communities are heavily influenced by religious faith and family history.

## OUR NEIGHBORHOOD

- This market is dominated by married couples, few with children at home.
- 80% of homes are owner occupied: primarily single family (73%) or mobile homes (24%).
- Nearly one in five housing units is vacant, with a high proportion for seasonal use.
- Home values are very low—almost half of owned homes are valued under \$100,000.

## SOCIOECONOMIC TRAITS

- Shoppers use coupons frequently and buy generic goods.
- Do-it-yourself mentality; grow their own produce and work on their cars and ATVs.
- Pay bills in person and avoid using the internet for financial transactions.
- Often find computers and cell phones too complicated and confusing.
- Clothes a necessity, not a fashion statement; only buy new clothes when old clothes wear out.

## RACE AND ETHNICITY (Esri data)

The Diversity Index summarizes racial and ethnic diversity. The index shows the likelihood that two persons, chosen at random from the same area, belong to different race or ethnic groups. The index ranges from 0 (no diversity) to 100 (complete diversity).

## INCOME AND NET WORTH

Net worth measures total household assets (homes, vehicles, investments, etc.) less any debts, secured (e.g., mortgages) or unsecured (credit cards). Household income and net worth are estimated by Esri.

#### Median Household Income

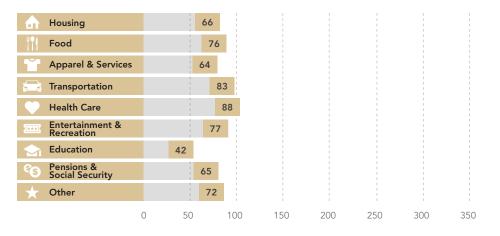

#### **Median Net Worth**

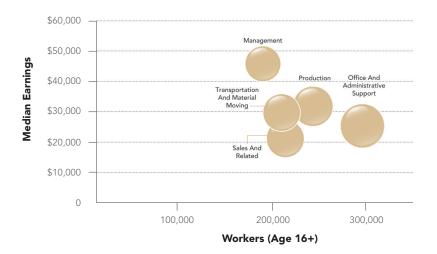

## AVERAGE HOUSEHOLD BUDGET INDEX

The index compares the average amount spent in this market's household budgets for housing, food, apparel, etc., to the average amount spent by all US households. An index of 100 is average. An index of 120 shows that average spending by consumers in this market is 20 percent above the national average. Consumer expenditures are estimated by Esri.

## **OCCUPATION BY EARNINGS**

The five occupations with the highest number of workers in the market are displayed by median earnings. Data from the Census Bureau's American Community Survey.

# LifeMode Group: Rustic Outposts

#### MARKET PROFILE (Consumer preferences are estimated from data by MRI-Simmons.)

- They own a riding lawn mower, as well as a garden tiller, and have vegetable gardens.
- More than half of the households have a high-speed internet connection.
- They use a satellite dish to watch CMT, the History Channel, and GSN.
- Pets are popular—dogs, cats, and birds.
- Leisure activities include hunting and fishing.
- They listen to faith-based radio, country, and gospel music.
- Many are on Medicare and frequent the Walgreens pharmacy.

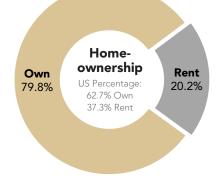

#### HOUSING

Median home value is displayed for markets that are primarily owner occupied; average rent is shown for renter-occupied markets. Tenure and home value are estimated by Esri. Housing type and average rent are from the Census Bureau's American Community Survey.

**Typical Housing:** Single Family; Mobile Homes

Median Value: \$112,800 US Median: \$207,300

## POPULATION CHARACTERISTICS

Total population, average annual population change since Census 2010, and average density (population per square mile) are displayed for the market relative to the size and change among all Tapestry markets. Data estimated by Esri.

## **ESRI INDEXES**

Esri developed three indexes to display average household wealth, socioeconomic status, and housing affordability for the market relative to US standards.

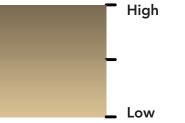

# LifeMode Group: Rustic Outposts Rooted Rural

#### **SEGMENT DENSITY**

This map illustrates the density and distribution of the *Rooted Rural* Tapestry Segment by households.
